

# Why Choose LabTech®

## Top 12 Reasons More IT Service Providers Choose LabTech

The LabTech remote monitoring and management (RMM) platform is the **RMM platform** of choice for more than **3,800** managed service providers (MSPs) and IT service providers worldwide. **Why? Because LabTech was designed to make your job easier, straight out-of-the-box.**

**1**

### **Automate Any IT Process or Task**

From simple scripts that restart stopped services to complex scripts that configure entire workstations, if you can think it, LabTech can automate it.

### **Work on Multiple Machines at the Same Time**

Work on multiple servers, workstations and even network devices at the same time—natively.

**2**

**3**

### **Create, Edit and Deploy Policies with a Single-Click**

Easily manage IT policies and processes across multiple endpoints at once. Replicate changes to an entire group of devices in minutes!

### **Solve Issues without Interrupting Your Clients**

Accomplish even the most complex tasks without ever interrupting your end-users' ability to work.

**4**

**5**

### **Increase Performance with the Best PSA Integration**

Get two-way synchronisation of companies, clients, tickets and device billing information with your ConnectWise or Autotask PSA solution.

### **Control Your Customers' Experience**

LabTech's built-in system tray is fully brandable and customisable so your clients get the end-user experience they expect from a world-class IT service provider.

# 7

## Manage Everything from One Control Centre

From security and backup to patching and desktop management, LabTech continues to add integration partners so you can manage everything through a single console.

## Grow Your Business through Community and Collaboration

We're committed to developing and delivering best practices and industry foresight to arm you with the knowledge and resources needed to grow your business.

# 8

# 9

## Increase Profits, Decrease Costs

Manage more endpoints with the same resources, resolve issues remotely, detect opportunities for new projects, increase billable hours and more.

## Detect and Resolve Problems Before They Happen

LabTech monitors the performance of client devices and can raise an alert, open a ticket or even execute a script to resolve a detected problem automatically—oftentimes before your clients even know there's an issue.
