Why Choose LabTech®

REASON # 7

Everything You Need in One Simple to Use Interface.

LabTech brings all of your **monitoring and management**—from patch management and backups to security and automation—**together in one place.** LabTech's platform approach and comprehensive interface allow your technicians to **save tons of time** and have **unparalleled visibility into your clients' IT infrastructure.**

All the Information and Tools You Need in a Single Console

Single-Pane-of-Glass Management
Leverage everything from passwords to software licenses to event logs; browse internal client networks over secure connections without ever having to login to a remote machine; use HTTP, secure SSH, Telnet and a host of other management tools—all from within the LabTech console.

Your Cockpit for IT Service Delivery
LabTech's platform approach to computer management enables you to use LabTech to manage your other software products as well. Our integrations with industry-leading solutions let you manage multiple applications for multiple endpoints from one platform, including:

- Antivirus
- Anti-Malware
- Backup and Disaster Recovery
- Desktop Management

- Email Protection
- Patch Management
- Remote Control

"The integration is tremendous because there are no missed fails. If there are failures we know about it."

Adam Nash, *Customer Maintenance Group Manager*
4IT

The Solutions You Need
