

Secure Hosted Exchange

Improve productivity and eliminate the hassles of in-house servers.

Blue Solution's Secure Exchange Hosting gives you control of your email system without the complications and expense of managing your own servers. For a low monthly, per-mailbox fee, you get unlimited storage and the ability to easily add or remove users and services. SecureTide™ is embedded in every hosted mailbox, so you also get the best spam and virus protection in the business built right in.

Features

- Easy, Web-based Access
- New Email Archiving Capabilities
- Unlimited Mailbox Storage
- Embedded Premium Spam and Virus Protection
- Optimized Performance with Akamai IP Acceleration Technology
- Outlook 2013 for PC or Outlook 2013 for Mac

Benefits

- Simple administration tools help manage email routing, aliases, groups, users, mailbox storage, forwarding, passwords and client configuration in real time
- Mobile device support for BlackBerry, ActiveSync devices (Windows Phone, iPhone, Android) and iPad & tablets
- Migrate users at their own pace with "Domain Routing" and "Outlook Configuration" features
- All the features of OWA, including conversation view, mail notifications, calendar reminders, public folders, contacts, tasks, SharePoint documents, and global address list access
- View live spam statistics and zero-hour virus alerts
- Supported with 24 x 7 Phenomenal Care™
