

# FINISHING OFFICE 365 MIGRATIONS THE HARD WAY

## VERSUS DEPLOYMENTPRO

Once the mailbox data is moved, the migration is complete. Or is it? The final step of configuring Outlook is a big hassle for end users. But it doesn't have to be. DeploymentPro lets you delight customers by configuring Outlook automatically. End users get to dive right into work after the migration, and you complete the project and earn more revenue.

Time Investment for 20 seats: End User IT Support Partner  
All time estimates are based on total man hours, not time per user.

### SET UP MAILBOX MIGRATION

#### Prepare Your Users

**AUTOMATED** **MANUAL**

#### Import users into DeploymentPro

IMPORT USERS

#### Install DeploymentPro on desktops

Set Up Group Policy to install silently **OR** Send an email with download link

1 Hour 2 Hours 30 Minutes

#### Track each user during installation

Email Bob Jones and remind him to install!

#### Email every user with detailed directions

Hello Team,  
We are migrating to Office 365. Please follow these directions:

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_
4. \_\_\_\_\_
5. \_\_\_\_\_
6. \_\_\_\_\_

about this email!

### PERFORM YOUR MIGRATION

#### Configure Outlook

**AUTOMATED** **MANUAL**

#### Start configuration in DeploymentPro

Admin initiates process

Configure Outlook

#### DeploymentPro guides user through configuration

- Creates a new mail profile
- Configures the new profile to send/receive from Office 365
- Sets the new profile as the default mail profile
- Allows the user to set their Office 365 password
- Attaches any existing PSTs
- Copies over the signatures
- Copies over auto-completes

2 Hours

#### Set up new Outlook profile

**Autodiscover**  
Not valid for all scenarios  
End user creates a new outlook profile  
Autodiscover builds their profile  
 30 Min

**Support Team Configures Manually**  
Visit every Desk physically or virtually  
Time consuming with user downtime  
 7 Hours 7 Hours

**Every User Configures Manually**  
End user creates a new outlook profile  
Configures all settings  
Generates errors  
 7 Hours

#### Set up Outlook features

- Attach local PSTs to new profile
- Set up a new Signature
- Lose cached email addresses

20 Hours

#### Track each user as they configure Outlook

#### Answer support tickets

- Why am I not getting any mail?
- How do I create a new profile?
- What happened to my email signature?
- I'm missing all my archived emails!
- Where are all my clients' email addresses?

10 Hours

#### Total Deployment Time:

End Users **2-4 Hours** IT Support **No Time** Partner **30 min-1 hour**

#### Total Deployment Time:

End Users **22-29 Hours** IT Support **10-17 Hours** Partner **1-1.5 Hours**
