

Vembu BDR Suite – Comprehensive Backup and DR solution for Data Centers

Vembu BDR Suite provides complete, hassle-free, universal Backup and Disaster Recovery (DR) solution for both physical and virtual environments. It features host level backups of VMware and Hyper-V VMs and the physical machines of Windows, Linux, and MAC.

Vembu BDR Suite also allows granular recovery of files, folders, and applications. Using the advanced patented storage technology, Vembu implements distributed Backup & DR operations in a centrally managed data protection environment.

Mackie Group

“ Vembu ensures availability of our core productions systems that support Mackie’s business operations. 24x7 availability of business applications and its data is critical for us, and Vembu delivers on these requirements. Vembu has become an integral component of our IT and business continuity strategy.”

Lee Wong
Manager of Information Technology at The Mackie Group

CEREDIGION County Council

“ Vembu have been a valued partner since starting to use the product around 5 years ago. We’ve consistently seen improvements and upgrades as needed. When we’ve had problems they’ve been there to help, no hard sales and no fuss. ”

Alan Morris
Head of Technical Services, Cyngor Sir CEREDIGION County Council
